## Education

### Lovely Professional University

Aug. 2021 – Present

*Bachelor of Science in Computer Science(Hons) GPA : 8.13*

*Punjab*

### Green Valley Public School

May, 2019 – April 2021

*High School, Percentage : 81.8*

*Haryana*

## Experience

### Hbeonlabs

1 June 2023 – 25 July 2023

*Software Engineer Intern*

*Work from Home*

- Developed and maintained the Flight Tracker application for Android using Java, providing real-time flight tracking functionality to users.
- Contributed to the enhancement of the company website by implementing front-end changes , Develop UI and authentication of User.
- Educated and mentored a class of 30 students in digital marketing strategies and techniques.
- Acted as the primary point of contact for direct communication with clients, ensuring efficient and effective interactions throughout the project lifecycle.

## Projects

### Flight Tracker | Java, Volley library,SQLite,Android Studio

July 2023

- Developed a feature-rich flight tracker Android app in Java, enabling users to monitor real-time flight information and travel efficiently.
- Implemented a user-friendly interface, allowing users to easily search for and track flights by entering flight numbers or browsing through a comprehensive airline and airport database.
- Implemented offline mode, allowing users to access their saved flight itineraries and track flights even without an internet connection.

### ArtStudio | Kotlin, Android Studio

July 2023

- Developed a versatile drawing application in Kotlin, empowering users with a wide range of tools to create and customize digital artwork seamlessly.
- Implemented advanced drawing functionalities, including support for layers, undo/redo operations, and customizable brush settings, providing users with a professional-grade drawing experience.
- Utilized the layout editor to create a UI for the application in order to allow different scenes to interact with each other.

### Portfolio Website | MERN Stack Development

June 2023

- Build a full-stack web application using React on the front end and MongoDB on the back end where
- Highlights of my most impressive work.

## Technical Skills

**Languages:** C, C++, Java, JavaScript, Kotlin

**Technologies:** MongoDB, Express.js, React.js, Node.js, firebase, SQLite, Github

## Achievement

### Duration

Spring 2022 – Present

*Lovely Professional University*

- Got Rank 3 in college in GeeksforGeeks contest
- Have solved over 400 Questions on GeekforGeeks and around 200 on leetcode and participate in 40+ contest on leetcode and codechef
- Qualify in top 35 students in Neo Codeathon happened on 16 sep 2022

## Certifications

- Android Development in Kotlin - By GeeksforGeeks
- Data structures and algorithms - By GeeksForGeeks
- WebDevelopment in Mern Stack - By Udemy
